

CONSULTING ENGINEERS APPOINT NEW CEO effective September 1

**For Immediate Release
June 13, 2025**

“Today we are announcing our Association has been successful through their expression of interest process to appoint Dr. Robert Radovanovic, P. Eng., IRP, CAMA as the new CEO of the Consulting Engineers of Alberta (CEA) to begin September 1,” says President Michael Jackson, P.Eng.

“We are confident that Robert will fill the footsteps of retiring CEO, Ken Kozakewich, MBA, P.Eng. Over the past seven years Ken has built strong relationships with client groups and allied industry associations. This has allowed CEA to have a recognized seat at the table with public sector entities regarding decisions related to the legislation, regulations and policies that directly impact our industry.”

Robert Radovanovic comes to CEA with over 20 years of experience in consulting engineering in a variety of roles ranging from small business founder, large firm executive management and academia.

“It was an honour to represent our members and work closely with the many talented individuals on CEA’s Board and committees during my time as CEO. I truly enjoyed and appreciated the respect and professionalism I received from both leaders of our industry and our client groups,” says Ken Kozakewich. “The decision to move into the next chapter of my life has been easy since CEA is in a strong position and ready for the new voice and fresh perspectives that Robert will provide.”

The Consulting Engineers of Alberta are an important part of our knowledge-based economy. In Alberta, nearly 80 member-firms of the CEA employ over 10,000 professional engineers, technologists and support staff and contribute over \$2 billion annually directly to Alberta’s economy.
